

We help children feel more comfortable coming to funerals

We know that families want to be together when they honor the life of a loved one.

Since the visitation and funeral can be confusing to children, we offer the "STAR" (a Special Time to Always Remember™) class. Through the use of stories, pictures and interactive discussion, our STAR teachers guide children through this difficult time. We also have a special children's room that provides a safe place to play so parents can reminisce and share memories.

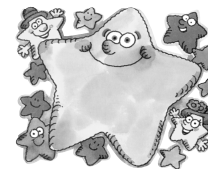

Offering a children's room and the STAR class are two more ways to better serve the families of our community.
